

# LOOP PRO

## ANCHOR STRAP

### ALP00W1

The Loop Pro by ZERO® is a polyester webbing sling designed for a multitude of fixing including over-head use on steel beams and roof trusses.

Lined with a non-slip rubber backing and D rings at each end the Loop Pro's non-slip rubber backing prevents the anchor from sliding and gives the webbing some protection on rough edges.

**RATING:** 22kN

**LIFESPAN:** Up to 10 Years

**CERTIFICATION:**

EN 795: 2012 Class B

EN 795:2012 Class B, Personal fall protection equipment. Anchor devices
